Source: Grays Harbor County GIS, 2007; Federal Emergency Management Agency (Flood), 2007

* These floodplains were mapped with available electronic data from FEMA. FEMA has not updated their electronic information in the City since a levee was constructed. Updated paper maps from FEMA reflect LOMR 1998 that show areas south of the Chehalis River as "...protected from the 100-year flood by levee, dike, or other structures subject to possible failure or overtopping during larger floods."

Legend

- FEMA Zone A (100-yr Flood Zone)
- Waterbody
- Dike (Estimated Location)
- Pipe
- City Boundary
- Study Area Boundary
- Arterial
- Local Road

Frequently Flooded Areas
