

Disc Golf Rules & Etiquette

1. One stroke is counted for each throw, and for each penalty stroke incurred. The object is to finish with the lowest possible score.
2. Tee throws must be released with one foot immediately behind the tee marker. A run-up is permitted, as is a follow through that carries the thrower past the tee box as long as the disc is released behind within the tee box.
3. After teeing off, the player whose disc is furthest from the hole throws first; the player with the least number of strokes on the previous hole is first to tee off on the next hole.
4. Fairway throws must be made with the foot closest to the hole on the front edge of the lie where the last throw landed.
5. Only a disc that comes to rest inside the basket or chains constitutes a successful completion of that hole.
6. Any disc that comes to rest more than six feet above the ground is considered unplayable. The disc must be thrown from the ground directly below the disc. (1 stroke penalty)
7. Never throw until players ahead of you are out of range, and until the fairway is clear.
8. Any throw that lands on concrete will be considered out of bounds. The disc is then played from where the disc went out of bounds. (1 Stroke Penalty).
9. **Be Good Neighbors. Be sure to control your disc so it doesn't approach any vehicles or residences.**
